DETAILED ACTION

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: a method and apparatus are disclosed. The closest prior art Chen US Patent No. 7,154,846 and Kim et al US patent No. 7,072,324 disclose similar method and apparatus. However, as acknowledged by applicant in the comment filed on 7/16/08, page 9, second and third full paragraph, Chen and Kim et al fail to teach or fairly suggest feeding "a replica of the entire modulation symbol sequence to each of a plurality of orthogonal sequence covers", as recited in claims 1, 16 and 38. In addition, the combined references fail to teach in combination with the other claimed limitations, the limitations, recited in claim 8, lines 5-6, and recited in claim 23, lines 5-6.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Examiner's Comment Re: Terminal Disclaimer

2. The terminal disclaimer filed on 9/21/09 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US patent no. 6,731,668 has been reviewed and is accepted. The terminal disclaimer has been recorded.
